**CDBG – MIT – Rebuild Florida Mitigation General Infrastructure Program
Bridge 764050 – Johns Place Road over Branch of Simms Creek**

To Whom It May Concern,

The Department of Economic Opportunity has allocated \$475,000,000 in CDBG-MIT funding, the Rebuild Florida Mitigation General Infrastructure Program. It is designed to provide funding opportunities to units of general local government (UGLG), educational institutions, state agencies, and non-profits the purposes of developing and updating state, regional and local plans.

The Rebuild Florida General Planning Support Program is administered by the Florida Department of Economic Opportunity and is funded by the U.S Department of Housing and Urban Development through the Community Development Block Grant – Mitigation (CDBG-MIT) funding.

Eligible activities include projects that demonstrably increase community resilience. These mitigation funds represent a unique and significant opportunity to carry out strategic and high-impact activities to minimize or eliminate risks and reduce losses from future disasters.

Public Works is seeking funding to strengthen bridge no. 764050. The bridge is located on Johns Place Road over Branch of Simms Creek waterway. Putnam County will be applying for a grant to fund profession engineering design services, construction and construction engineering inspection services.

Any public comments or requests for a copy of the proposed application must be sent to Mike Rodriguez at Mike.Rodriguez@putnam-fl.com or mailed to the following address by September 14, 2020:
