LETTER FROM THE DIRECTOR

Welcome to the Putnam County Parks and Recreation Department. We are honored to contribute our services to over 70,000 residents of Putnam County as well as those that visit our county for special events. We would like to sincerely thank all of our recreation program participants and park patrons. The following is a list of projects and opportunities that were met during fiscal year 2021-22.

The County had partnered with the Florahome Parks Association for the rehabilitation of a previously used building at the Florahome Park Property. This building was known as Palmetto Hall and has a very rich history in the community. This partnership has allowed the almost complete restoration of this facility.

The St. Johns River Pickleball Group had received an allotment of \$100,000 to construct new permanent pickleball courts at the John Theobald Sports Complex. By this writing, that project should be complete and the pickleball group will have brand new courts to play on. The Board of County Commissioners has set aside \$40,000 for the department to have a well dug on site for the Project Play splash pad. That project should also be completed by the delivery of this guide.

We enjoyed a much higher success rate this year with our volunteers for our sports and activities as well as for our officials that are needed to ensure a successful program for our sports activities. As our mission statement states, we always strive to improve the programs we currently offer as well as try to offer new activities and programs to the community. We want to be able to successfully serve as many citizens of the community as our resources will allow.

If you ever have any questions or concerns about the Department or its programs, or are interested in becoming a volunteer, please feel free to contact me at 386-329-1268.
